Internet Services

- Viking is connected to the Alberta Super Net, a broadband network that connects to rural and urban communities. Built to connect public institutions such as schools, hospitals and municipalities to a broadband network.
- New fiber optic line to the new Parrish & Heimbecker facility west of Viking.
- Other providers for commercial and residential customers are available in Viking.

Water Services

- Viking obtains its water supply from the City of Edmonton, and can hold a three day supply at the water tower as backup.
- Water pipeline runs along Highway 14.
- High quality treated water to the municipalities of Beaver County.
- The supply for household, commercial and agricultural use is consistent and monitored.
- Two untreated water reservoirs connected by pipeline to Town untreated water reservoir.
